DISCOVER, LEARN AND PROTECT

Conservation & Animal Welfare

Young explorers can discover how they help protect the natural world. Through an exclusive behind-the-scenes experience, they meet our aquarists, divers, and animal care teams who look after more than 65,000 marine animals. It's a chance to learn how we care, conserve, and safeguard the ocean's most fascinating species.

Responsible Operations

We're committed to operating responsibly and reducing our environmental footprint. Children take part in creative upcycling initiatives, transforming everyday items like tissue boxes and jars into art and storage, showing how small actions can make a meaningful impact.

Education & Awareness

Through engaging talks and hands-on learning, kids gain a deeper understanding of the environment. These sessions build awareness, inspire responsible choices, and encourage young explorers to play an active role in protecting our planet.
